Las Vegas, Nevada 89118

Dear Ms. Framo:

I work with Focus Urban Development Corporation, a non-profit organization located in North Las Vegas, and wanted to take a moment and reach out to you regarding concession at the new Las Vegas (Raiders) Stadium. I obtained your business card from the Authority at the May 23, 2019 meeting.

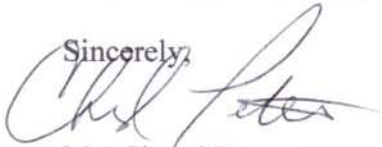

We are very interested in being a vendor with the new stadium, to sell food and other kiosk items. I submitted our application recently for Focus Development Corporation, detailing our past experience and required information. We would appreciate any information that you or your staff may provide to us regarding the schedule for approving vendors, the process and what we need to do in order to be approved as a vendor.

Focus Urban Development Corporation is very excited about the Stadium project and are developing a workplace diversity program offering paid internships to local students at institutes of higher education, such as UNLV, that are being trained in the culinary field. Our non-profit organization provides mentoring to many young adults, and we see this as a wonderful opportunity that would benefit the event attendees, the Authority, the students, and the community.

We want to make sure we have done everything that is required by you and the project itself. Any assistance you can offer at this time will be greatly appreciated.

Please let me know if you need further information from us. We are grateful for your time and look forward to hearing from you.

Sincerely,

Ms. Cheryl Peters  
Focus Urban Development Corporation

**Subject:** Chaney Testimony: 5/23/29

Mr. Haynes,

My testimony from the May 23rd Authority Board Meeting is below. Please ensure it is on file.  
-----

After reviewing SB1 and the Community Benefits Plan which are not specific to inclusion by ethnicity, I'd like to know what steps are being taken to ensure the African American Community is being included in employment, procurement, and community engagement activities during planning, construction, and on-going operations of the stadium and its satellite locations.

Thank you,

Dr. D. Edward Chaney

RE: May 23, 2019 Stadium Authority Board Meeting Testimony

Myisha Williams, Vice Chair of the Commission on Minority Affairs for the record. I'd like to thank Chairman Hill and members of the Board for this opportunity to speak with you today. First, I would like to provide a brief background on the Commission and its purpose. We actively research, advocate, and encourage discussion around all topics affecting Nevada minorities but have seven main areas of focus. They include, education, housing, employment, civil rights, health, political empowerment and economic development.

The Commission's 2019-2020 strategic plan submitted to the Governor's office includes four major goals:

First is to boost our visibility as a central advisory body that gives a voice to minority issues.

Second is to become a hub for statewide minority data collection and dissemination.

Third is to encourage discussion and facilitate connections between minority advocates.

And fourth, is to support legislation that will make measurable improvements to quality of life for Nevada minorities. For example, in this session we testified in support of SB 490 – AN ACT relating to government contracts requiring the Nevada Commission on Minority Affairs to conduct a study relating to disparities on the basis of race or gender in the awarding of purchasing and public works contracts.

Given this context, my question for the Board today is: **Is there an opportunity for the Commission to access workforce and procurement data that would allow us to stratify inclusion by race and gender in an effort to support the Commission in meeting the goals we have been tasked with fulfilling?**

Respectfully,

Commissioner Myisha Williams  
Vice Chair of the Nevada Commission on Minority Affairs  
702-330-2449 (direct)

**May 24, 2019**

Name: Pastor Ralph E. Williamson

Representing: Faith Organizing Alliance – President

Subj: 3.3 Workforce and Business Diversity.

D. Faith Based Leaders – Developer will maintain relationships with the faith based community leaders throughout the design, construction, and operation phases of the Project, utilizing their relationship with the communities they serve to communicate employment and business development opportunities on the Project.

On behalf of faith-based organizations, I'd like to know how we can better engage in the process. What are some of the restrictions and limitations that we need to be aware of? We're looking for parameters. We want to know what opportunities are available so that we can help position our community to participate. Is there a contact I can follow up with? What is that process? Specifically, I'm looking for a list of opportunities for employment, procurement, and community engagement.

Thank you,

Ralph E. Williamson

Good afternoon Mr. Chairman and Board of Directors. Thank you for your time. My name is Taryrece Swint and I live at 7350 W Centennial Pkwy, Apt 1059, Las Vegas, Nevada. I am here on behalf of two organizations – the nonprofit Uplift Foundation of Nevada and the local Kappa Xi Chapter of Omega Psi Phi Fraternity, Incorporated. Together, these organizations have spent the past 42 years improving this community.

As Omega Men and through our Uplift Foundation, we place special emphasis on mentoring, with a focus on helping African-American boys successfully transition into positive and productive men. Nearly 1,500 boys have participated in our manhood training; today, the overwhelming majority are leading successful lives and giving back their communities around the country.

Our mentees are exposed to men of the highest caliber and achievement -- doctors, lawyers, engineers, entrepreneurs, service men and women and professional athletes, including our very own Kappa Xi Brother, Cameron "Cam" Jefferson, a graduate of Desert Oasis High School and a member of the 2015 Super Bowl Champion Denver Broncos.

We are excited about the Raiders arrival and what it will mean for this city. We are equally excited about the possibility of partnering with the Raiders to empower local youth and our fellow citizens. Our organizations are interested in learning more about and participating in concessions and fundraising opportunities at the new Raiders stadium.

As I mentioned, we have a demonstrated track record of service; last month, we awarded \$28,000 in scholarships to college-bound students. Other activities include providing shoes to underprivileged elementary school

students, toys to youth during Christmas, baskets of food to low-income families at Thanksgiving, college and career counseling for middle school and high school students, and forums to bring cops, kids and the community together to build trust and improve dialogue. With additional resources from the Las Vegas Raiders and the Raiders Foundation, we can do even more for the community we all love and cherish.

I would like to submit my name and contact information for public record, 678-77-9866 and email taryreceswint@gmail.com. Can we receive more information on concession booth fundraising opportunities, donation requests and other partnership opportunities? Thank you for your time.
